WEST REGENT OIL SHOWS UP WELL

Eastern Alberta Oil Fields Attracting More Attention From Oil Men

In the early part of December we reported that oil had been found in the West Regent well near Monitor. The drill had reached between 25 and 26 hundred feet when oil began to show in the hole. As soon as the oil was discovered, work was suspended for the winter and samples of the oil was taken to the company's office at Calgary. Later a sample of this oil was sent to the University of Alberta for inspection. We have just learned that this oil tested 29 Baume and was considered a good grade of crude oil. The sample submitted was not large enough to admit of a complete analysis being made, but a larger sample is being secured when the staff at the University laboratory will be able to make a complete report on it, showing all the constituents contained in the crude oil. Soon after the discovery of the oil, Mr. James Damma the manager of the West Regent Co., left Calgary for Scotland to appraise the shareholders of his company of their good prospects and to arrange details for further development work. No news has been given out locally, as to the future plans of the company, but in all probability the present well will be completed early in the spring, and more wells started, so that enough oil can be produced to warrant the building of a refinery, or the laying of a pipe line to transport the oil to a market.

This promising news, with the splendid indications at Irma Viking and Birch Lake, will no doubt have a big tendency to urge on drilling in these various fields. It is too early yet, to make any predictions for this large territory in East Alberta, but the next few months will see renewed activity in all these fields, and the drills will be rushed down as never before.

Mr. Damma is expected back in Calgary about the end of February when work will be resumed on the West Regent holdings.

—Irma Times

COLD SNAP

The mild weather, which arrived here on Wednesday, must have been delayed somewhat the early part of the week.

On Sunday morning the thermometer registered 50 degrees below zero, Monday morning it showed 36 below, and by noon on Tuesday it was only about 6 below. It has been a climbing ever since and we hope it stays up for a good spell.

One redeeming feature of the cold snap was its short duration and the absence of the wind.

W. Partridge had one of his cows frozen, on Sunday, during the cold snap.

The skating rink is again in good shape, after the snow and cold weather had held things up for a few days.

The curlers have resumed their games once more and are busy each night at the rink.

The snow which fell last week has greatly improved the trails for sleighing, which has not been very good this winter.

Joe Hamer is around again after being on the sick list for over a week.

Come for a trip through the Grand Canyon of the Colorado on Saturday evening, of this week, "a la Lantern views" in the Co-operative Church.

No admission. Silver collection.

Annual Rink & Hockey Club DANCE

Friday, January 27

In the Big Hall
Admission \$1.00
Ladies Free

Come out and help along this worthy cause and keep the Rink open all season

RED CROSS

The Annual Meeting of the Alberta Division, Canadian Red Cross Society, will be held in Calgary next Tuesday, Jan. 31st.

The Red Cross Society of Alberta, by arrangement with the Government of Alberta, has been in charge of the distribution of clothing to the residents of the drought stricken areas where needed. The Society now finds that the funds for this work have been exhausted, and it is opening a campaign for the raising of from \$30,000 to \$40,000 for the payment for clothing already purchased, and for the carrying on of this work for the balance of this season.

A generous response to this appeal for funds is looked for from the people of Alberta.

NOTICE

Applications for the position as Secty-Treas. of the Monitor School District will be received up to Jan. 31, 1922.

Address to Box 43, Monitor.

HOGS WANTED

I am shipping hogs on Tuesday Jan. 31st. Highest market prices paid.

H. McCarron

SEED RYE

500 bushels Spring Seed Rye for sale, grown from A. E. McKenzie's seed. Samples can be seen at the U. G. G. Elevator or at News Office, E. P. Woodrow.

Stonelaw U. F. A.

The Local will meet in the Minor Schoolhouse on Friday, Jan. 27th, at 8 p. m. Report of the Delegates and other important business.

There will be a dance after the meeting. Please bring refreshments.

ANNUAL MEETING

The Annual Meeting of the Monitor Branch, G. W. V. A., will be held Thursday afternoon, Jan. 26th, in the Bank Building.

United Meeting of Coronation Veteran, Consort, Monitor and Kierleimuir G. W. V. A., in the Hotel Dining Room, Thursday evening Jan. 26th. Supper will be served at 8.30, followed by a smoker. E. Poole, 2nd Vice-Pres. Provincial Command, G. W. V. A., will address the gathering.

All visiting comrades cordially invited to attend.

Local Happenings

The Annual Dance, under the auspices of the Monitor Rink & Hockey Club, will be held in the Big Hall tomorrow night, Friday the 27th.

As the proceeds of the dance will be used in keeping the rink going, it is hoped that an extra large crowd will attend.

The skating has been free, to the women and children, and a small charge made to those who did not purchase tickets.

At the present time there is a deficit, and if the rink is to be kept open for the balance of the season, additional funds must be forthcoming at once.

Tickets are now being sold. Have you bought yours?

The local ice-houses are being filled this week. The ice was shipped in from Erskine; the cakes weighing between three and four hundred pounds.

J. P. Hughes, Calgary, is visiting his sister Mrs. J. Smiley, Sounding Lake.

H. McCarron is shipping hogs on Tuesday, Jan. 31st.

P. Muth was made Reeve of the Village, at a recent meeting of the Council.

W. Sinclair, of Vancouver, is spending a few days with his brother, Archie.

T. C. Harley met with a most painful accident early Monday evening. He was overhauling a gas lamp by the light of a coal-oil lamp, when some gasoline must have come in contact with the flame of the oil lamp. Suddenly Mr. Harley found himself in flames, and before they could be extinguished he was badly burned on the face, neck and hands. The fire caught in the interior of the house, but Mrs. Harley, with great presence of mind, put it out in short time. —Altario Recorder.

Be at the Dance tomorrow night.

Canada's Needs

No. 4—A Greater Use of Canadian Raw Materials

Men of all shades of political thought, and all students of economics, are agreed that the interests of Canada call for a reduction in imports of articles which the Canadian people can produce for themselves, and an increase in the export of those products and articles of which this Dominion can easily and profitably produce a surplus, in order that, through a combination of these two developments, a pronounced improvement may be brought about in the balance of trade in favor of the Dominion. It is when we come to consideration of ways and means whereby such a desirable and necessary change is to be effected that opinions sharply differ.

One school of political thought declares that the only effective means to lessen imports and increase home production is through a protective tariff—that is, a tariff sufficiently high to either shut out foreign competition or at least to enable the Canadian grown or manufactured article to undersell foreign goods of a like kind.

The opposing school of thought contends that the inevitable result of such a tariff is to so enhance prices as to place a handicap on articles needed in the development of the country, and that thereby production at home is lessened, and, while import trade may be curtailed, production for export is likewise lowered and the buying power of the whole country reduced, and prices so enhanced that people are forced to go without many things which otherwise they would be able to purchase, and that this decreased buying power results in depression of trade and consequent unemployment.

The writer has no intention of taking any part in this political controversy. Whatever the effect of the tariff may be one way or the other, the writer inclines to the view that the real difficulty and economic weakness of the Canadian position at present is to be found in another direction.

The commercial strength of Germany before the war was found in the energy displayed by Government and people in developing the natural resources of the country for use at home and abroad. The same thing is true of the United States. Neither of these countries imported to any extent anything they could produce at home. It will be said that both these countries had protective tariffs and it may be argued that such tariffs were responsible for bringing about the result noted. But were they so responsible?

Canada has had a protective tariff for many years, yet this country has failed to develop many of its natural resources of raw material to anything like their full extent, and has gone on importing supplies which could have been secured at home. For example, Western Canada has some of the largest coal deposits in the world, yet for years millions of dollars worth of coal have been hauled by rail and water from Pennsylvania for use in this country. While Western Canada was doing this, Germany, as a result of scientific research work, was using greater inferior coal to the Western Canadian article in the great German factories and as fuel for its people. Ontario lacks coal and has for decades followed the line of least resistance and imported millions of tons annually from Pennsylvania whereas much of Ontario's and Quebec's industrial fuel requirements might have been obtained in Nova Scotia brought by water transportation up the St. Lawrence. But it was easier to continue to get supplies from Pennsylvania than to engage in the national work of developing an inter-Provincial trade in coal from the Maritime Provinces via the St. Lawrence route.

Canada possesses enormously rich deposits in iron, copper and other minerals, but they lack development, and we continue to import huge quantities of iron ore from the United States. Why? It is stated that one reason is that United States capitalists have secured control of the Canadian deposits and refuse to develop them so long as they can obtain sufficient quantities from their own mines; that, in a word, they are holding their Canadian properties in reserve against the day when their United States mines become exhausted and that then, and not until then, will they develop their Canadian held properties. If this is so, and there appears to be evidence to support this charge, then it is high time the Canadian Government took steps to put an end to such an outrage by compelling the development and operation of these Canadian mineral properties with a penalty of forfeiture if such development is not proceeded with within a reasonable time.

Many Canadian manufacturers continue to import raw, or semi-manufactured, supplies to be worked up into a more finished product when, by the expenditure of some money and the display of a little more initiative and enterprise, such supplies could be obtained within Canada, thereby lessening our import trade and providing a very considerable volume of employment within Canada, and making possible a large increase in the value of Canada's export trade.

There are many things Canada cannot produce and must, therefore, import, but there are many supplies now imported which could just as well be obtained at home, and it is the duty of the Government to direct its energies and frame its fiscal policy along lines which will promote such development within Canada.

Farming Not a Dull Occupation

Men Who Like Work Find it Very Interesting

To be a good farmer, one must like farming. He must be interested in the things he works with, and in the problems he meets. He works with soil, with machinery, with seed, with growing crops and with animals. He works also with markets. The problems he meets arise from the weather and its effects on soil, seed and crops; from weeds and plants and animal diseases; from the wearing of machinery; from fluctuating prices and from men who, not willing to work themselves, spend their time in working others, and in trying to reap the rewards of other men's labor. All these interests and problems may be merely perplexing and baffling and defeating, but many farmers are winning financial success out of these conditions and are finding them anything but dull.

EVERY WOMAN IN POOR HEALTH

Has an awful struggle. Lots to do, all kinds of worry, poor appetite, headaches, weakness. Her one desire is for more strength and better health. What sickly woman needs is a cleansing, blood purifying remedy like Dr. Hamilton's Pills. This wonderful medicine clears out the wastes from the system, regulates the bowels, helps the blood. To look your best, to feel fit and fine all day, to be free from lassitude and headache, use Dr. Hamilton's Pills regularly. 25c at all dealers or The Catarhazone Co., Montreal.

Prince Shoots His First Tiger

The Prince of Wales shot his first tiger while on a hunt in Nepal Terai. The animal measured nine feet six inches from nose to end of tail.

A GOOD APPETITE GREATLY DESIRED

The Occasional Use of a Tonic Ensures a Good Appetite and Good Health

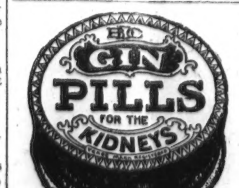

Loss of appetite is a common trouble, and indicates that the digestive system is out of order. Lacking a healthy appetite many people go too long without food and note how because food seems to distress them, and it is no wonder they complain of being constantly tired and unable to stand any strain. All this simply means that the digestive system is not doing its proper work and that the nutriment that should come from the food is not being distributed to the various organs of the body. In other words, the blood is growing thin and watery. In such cases what is needed is a tonic and among all medicines there is no tonic can equal Dr. Williams' Pink Pills. Take a short treatment with these pills and note how promptly your appetite returns and your power to digest food improves. The value of Dr. Williams' Pink Pills in cases of this kind is shown by the experience of Mrs. William Bennett, Cleland Corners, N.S., who says: "For a long time I suffered severely from indigestion. I could hardly eat, and anything I did eat disagreed with me. The result was I became badly run down. I suffered greatly from headaches, and often passed sleepless nights. I had taken a great deal of doctor's medicine with very little benefit, and having read much about Dr. Williams' Pink Pills I decided to try them. The result has met my best expectations. My digestion is now as good as ever. I sleep well at night, and have gained in flesh, and now when anyone in our family is ill this is the only remedy to take."

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old time energy. You can get these pills through any medicine dealer or by mail at 60 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Living in Austria is now 98 times as costly as in 1914.

Peevish, restless and sickly children owe their condition to worms. Mother's Worm Expeller will relieve them and restore health.

Red and blue are the best colors for scarifying birds.

UNION BANK OF CANADA HAS AN EXCEPTIONALLY STRONG STATEMENT

Bank's Position is Well Maintained, the Liquid Assets being 53.70 per cent. of Total Liabilities to the Public — Resources Aggregate \$152,625,386

THE balance sheet of the Union Bank of Canada, for the fiscal year ended November 30th, 1921, which was returned to the shareholders at the 57th annual meeting, held at the Bank's head office in the city of Winnipeg, on Monday, January 8th, discloses this well-known banking institution to be in a very strong and liquid position. The meeting was largely attended by representative shareholders. W. R. Allan, Vice-President, presided. H. B. Shaw, General Manager, presented the Bank's annual statement. Following the shareholders' meeting, the Board of Directors elected W. R. Allan, President, John Galt, former president, retiring because of his removal from Winnipeg to Victoria, B.C. Mr. Galt remains a director of the Bank. H. B. Shaw was elected Vice-President and will continue as General Manager.

The Bank's assets total \$152,625,386. The readily available portion of these assets represents 53.70 per cent. of the Bank's total liabilities to the public, thus demonstrating that the liquid position of the Bank has been strongly maintained.

A very strong feature of the statement is the carrying forward of \$1,684,000 of profit account, this being \$400,000 greater than the previous year, and the largest amount in the Bank's history.

That the Bank has continued to do its full share for the commercial interests of Canada is shown by the fact that the total of these loans at the end of the year was \$62,610,007.

Grain loans total \$7,295,483. Loans to Governments and Municipalities are \$7,420,223.

Deposits totalling \$116,723,755 are reported.

Net profits for the year amounted to \$1,342,385, which is about \$300,000 less than the previous year.

Complimentary copy of our Year Book, giving statistics of the progress of Canada may be obtained from any of our branch managers.

Drop in Montreal Customs Receipts

Customs and excise receipts collected at the port of Montreal during the past year amounted to \$80,271,570. This was a decline of \$16,596,588 due to a general diminution in the volume of imports, the abolition of the customs luxury tax, and the declining value of the goods brought into the country.

Mother, Quick! Give California Fig Syrup For Child's Bowels

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, cross, feverish, full of cold, or has colic, a teaspoonful will never fail to open the bowels. In a few hours you can see for yourself how thoroughly it works. It is the constipation poison, sour bile and waste from the tender, little bowels and gives you a well, playful child again. Millions of mothers use "California Fig Syrup" handy. They know a teaspoonful today saves a sick child to-morrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on bottle. Mother! You must give "California Fig Syrup" or you may get an imitation fig syrup.

The Man With Asthma almost longed for death to end his suffering. He sees ahead only years of endless torment with intervals of rest which are themselves fraught with never ceasing fear of renewed attacks. Let him turn to Dr. J. D. Kellogg's Asthma Remedy and know what complete relief it can give. Let him but use it faithfully and he will find his asthma greatly benefited.

League Used Thousands of Baseballs Thirty-three thousand, one hundred and ninety-two baseballs were used in the National League last season, President Heydler reported at the annual league meeting.

Many of the spheres were used, of course, in practice, but figured on a basis of 154 scheduled contests, the circuit clubs used something around 215 balls each day of the season.

For Sprains and Bruises.—There is nothing better for sprains and contusions than Dr. Thomas' Electric Oil. It will reduce the swelling that follows a sprain, will cool the inflamed flesh and drive the pain. It will take the ache out of a bruise and prevent the flesh from discoloring.

Where Father Shoked Father.—"I never smoked when I was your age. Will you be able to tell that to your son when you are my age?"

Son.—"Not with as straight a face as you do, father."—Exchange.

Minard's Liniment for Gels, Etc.

MR. H. B. SHAW Newly elected Vice-President and General Manager of the Union Bank of Canada who presented at the 57th annual meeting an exceptionally strong statement.

The Bank's assets total \$152,625,386. The readily available portion of these assets represents 53.70 per cent. of the Bank's total liabilities to the public, thus demonstrating that the liquid position of the Bank has been strongly maintained.

A very strong feature of the statement is the carrying forward of \$1,684,000 of profit account, this being \$400,000 greater than the previous year, and the largest amount in the Bank's history.

Dyed Her Stockings And Skirt to Match

Every "Diamond Dyer" package tells how to dye or tint any worn, faded garment or drapery a new rich color that will not fade, spot, fade or run. Perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods. In a few hours millions of women have been using "Diamond Dyes" to dye their old, shabby waists, skirts, dresses, coats, sweaters, stockings, draperies, hangings, everything!

Acclaimed as the handsomest man in France, H. Hoffman, of Paris, weighs 210 pounds and has a waist measurement of 66 inches.

RHEUMATISM? If you are a Sufferer, Read This Advice

Collinwood, Ont.—"It is with pleasure that I write this note of commendation. I suffered from rheumatism for three years and have been completely cured of same by taking a few packages of Dr. Pierce's Anuria Tablets and Dr. Pierce's Golden Medical Discovery."

Every after doctors' medicines failed to do any good. I am now free from all signs of rheumatism for which I most heartily thank Dr. Pierce and his wonderful medicines." Mrs. Kerwood Cook, Box 464, Send 10c to Dr. Pierce's Laboratory in Bridgeport, Ont., for trial pkg. of any of Dr. Pierce's remedies and write for free confidential medical advice.

HAVE YOU A COUGH?

This is of Vital Interest to You Woodstock, Ont.—"My husband always speaks a good word for Dr. Pierce's Golden Medical Discovery and we both feel that he owes his present good health to this splendid medicine. Bronchial pneumonia, as a child, left him with chronic bronchial trouble and it just kept getting worse every year even though he had been tried every remedy recommended to him. Some nights he would cough so hard I used to be afraid he might die before morning. Last fall his mother advised him to try the 'Golden Medical Discovery' and from the first few doses he improved. It is just a year now and he seems to be entirely cured of all bronchial ailments." Mrs. B. M. Greer, 87 Erie St. Get the Discovery today at any medicine dealer, druggist or liquid.

Constipation Vanishes Forever

Prompt—Permanent—Relief

CARTER'S LITTLE LIVER PILLS never fail. Purely vegetable—act surely but gently on the liver.

Stop after-dinner distress—correct indigestion—clear the complexion—brighten the eyes.

Small Pill—Small Dose—Small Price

Great Strength of Bones

Human bones have a wonderful power of resistance. It has been proved that they will bear a pressure three times greater than oak and almost as much as wrought iron before being crushed.

Corns disappear when treated with Holloway's Corn Remover without leaving a scar.

His Breath

He—I can hold my breath two minutes.

She—You don't say. And it's pretty strong tonight, too!—Waylaid Tales.

Minard's Liniment for Diastempers

Very Satisfactory Showing Of The Dairy Industry In Western Provinces

The dairy business has probably weathered the storm of depression somewhat better than any other branch of agriculture. All of the prairie provinces show an increase in the make of creamy butter. Manitoba shows, also, some increase in the make of dairy butter. The increase in the make of cheese has been very slight. Perhaps one of the most encouraging things in regard to dairying is a generally increased demand for dairy cows. This demand has developed quite rapidly in the past few months.

A report recently given out by the Dairy Commissioner of Saskatchewan shows that during the year 1921 there were fifty-five creameries in operation in the province and the total output of creamy butter from these was 7,085,000 lbs. with a value of \$2,609,000. 1921 was the first year the creamy output of Saskatchewan has reached the seven million mark, and above figures show an increase of 446,000 lbs., or nearly 7 per cent. over 1920. There was also an increase of nearly 50,000 milk cows in the province and the total value of dairy products was more than eighteen and three quarter million dollars. This is a very considerable drop in value from total products of the previous year, but this is reported as due to a decrease in the average market values which have obtained for dairy products during the year and not to a decrease in production.

Commissioner Marker, of Alberta, remarks that the prospects for dairying in this province for 1922 are reasonably bright. Continuing, he says: "The farmers who followed dairying in 1921 were always able to sell their product for cash, and in a ready market, and besides, if we omit a few weeks during the early part of the season, when the prices were at the lowest, the markets for dairy produce were really comparatively good and without any great fluctuation."

Commissioner Gibson, of Manitoba, remarks: "Those who were fortunate enough to have a good herd of dairy cows found a good market for their raw products by feeding it to their cows and turning it into dairy products. Figures were secured this year for the first time in regard to the amount of ice cream manufactured in the different ice cream plants throughout the province. The figures show this to be an important branch of the industry. Ice cream is a valuable food product; its popularity is growing and offers an excellent field for development."

A fact in connection with dairy products, which should be remembered with pride, is the very high standing taken by all the western provinces in the butter-scoring contest carried on by the Dominion Government. The three prairie provinces carried off the highest average score for six months. Then, also, the butter from the prairie provinces made good records at the National Dairy Show at Toronto and other eastern points, the Farmers' Sun, of Toronto, going so far as to say that "all the prizes worth having went west."

Radio Transmitters Installed
G. J. Shadick, Rao Street and Thirteenth Avenue, Regina, and K. Mulreid, also of that city, amateur radio enthusiasts, have installed a transmitter which it is expected will have a range of from 800 to 1,200 miles. It is announced that this will be used to handle relay messages with other Canadian and American amateur stations and that music will be broadcast for the benefit of amateurs within the province.

He'd Attend to That
A Yorkshire man, who was very low-legged, entered a tailor's shop to be measured for a pair of trousers. He selected the cloth, and the tailor proceeded to measure him.

When he passed the tape down the "bow" of the leg the man tapped him on the arm and said:
"Owd on-mate! These make 'em straight. Ah'll bend 'em!"

The Seri Indians are considered the most primitive people in North America.

Valuable New Fowl

Cross Between Turkey and Hen is Known as "Churkey"

The "swoose"—that curious hybrid between a swan and a goose, bred on a Norfolk farm, has a successor. A bird has been bred which is a cross between a hen and a turkey; and is to be known as "Churkey." The heridity of the bird was unknown to the Berkshire people on whose farm it was bred until it made its appearance.

The "swoose" is so-called mule, and is known chiefly in the locality for its extremely bad temper, which drives it even to the murder of innocent ducks. It is thought, though this is against all the rules, that the "Churkey" may be fertile. Like the "swoose," it partakes almost equally of the shape and color of its father, the turkey, and its mother, the hen; and its temper indicates no especial depravity.

Whether its flavor would qualify it for Christmas use is a point not yet determined. The bird is too valuable for such an experiment.

Racehorses are often insured for amounts as high as \$100,000.

Century Plant is Not Well Named

Some Will Flower After Being Cultivated Twenty Years

One of the big century plants is in bloom in the greenhouses of the New York Botanical Garden in Bronx Park. To the botanist it is a magnificent specimen of the Agave attenuata, a native of Mexico, but to the layman it is a plain century plant and is supposed to bloom only once in a hundred years.

It happens, however, that one does not have to wait quite that long for one to bloom, as was explained at the garden. Twenty years of cultivation in the present case has resulted in the great flowering spike of a thousand blossoms, in addition to the two hundred decorative foliage leaves which this century plant has produced.

FATHER POINT

Father Point Lighthouse. Fog horn Station and Keeper's House.

Father Point is a little Quebec cape jutting out into the St. Lawrence where it is still an ocean. It is here that the immigrant from European countries during the summer months gets his first human touch with Canada and Canadians.

Father Point would not appeal to the ordinary tourist or holiday maker. It is off the beaten track and only reached by car from Rimouski. Its charm is merely that of hundreds of other French-Canadian villages which are more accessible. The fresh breezes blow from off the St. Lawrence as they do upon countless other fishing villages along the river shore. This place is a haven for the tired, the brain-taxed, the over-worked and neurotic in its meditative calm and brooding hush.

The great interest in the little hamlet is for those who go down to the sea in ships. Near the extremity of the point a modern lighthouse has been erected which each night flashes its warning light across twenty miles of water. In close proximity is the giant foghorn blasting its message when fog enshrouds the light. Upon the hill stands a wireless station which receives advice of every vessel entering the gulf before it proceeds up the river. A coastguard and life-saving station completes the precautions for the preservation of vessel and man upon the water.

But greatest interest centres in the "Eureka," the sturdy little government pilot boat which leaves its pier on the point to take out a river guide for all vessels going up to Quebec or Montreal. When the wireless report is received of the approach of a vessel all eyes are turned riverwards and glasses and telescopes focussed upon the speck on the horizon following it as it takes shape over the rim of the sea.

Larger and larger looms up what turns out to be a giant passenger liner of the Canadian Pacific bound with a heavy freight of human souls for the St. Lawrence ports. When about half a mile away or so the pilot boat leaves its pier and steams out to meet its mammoth sister. The pilot is, however, not the only man to go on board. There is the Inspector of Immigration, the Colonization Agent of the Canadian Pacific and the representatives of the passenger department of the same company, all having the same object, assisting the steamship passengers, preparing them for debarkation, and facilitating the actual landing. And so it is a goodly little number the pilot boat takes out on its short voyage.

It takes the speedy little craft but a short time to reach the big liner now merely drifting with the tide and waiting its arrival, and with a deft little swing she glides gracefully alongside, the incongruity of the pair forcibly suggesting another interpretation of "Dignity and Impudence." All the while the passengers are crowding the decks, and hanging in a dense mass over the side eagerly watching, wondering and appraising.

The rope ladder is dropped from the liner and swings out from the side at each heave of the vessel. The pilot seizes it and climbs up hand over hand to be followed by the others who are to make the trip with the newcomers over the river. Remarks and light banter are interchanged, there is much waving of hands and muttering of handkerchiefs, and the cheeriest of spirits prevails. Then the little boat pulls away, the Titan of the sea appears to recede, and in the echo of shouts and cheers the pilot boat turns her nose to the shore and faces and figures become obscure blurs.

Millions Of Trees Are Distributed From Saskatchewan Nurseries

Co-Operative Wool Sales In 1921

Four Million Pounds Disposed of at Satisfactory Price

According to a report received from the Canadian Co-operative Wool Growers' Limited, with head office in Toronto, nearly four million pounds of Canadian wool, which was consigned for grading and handling to the Canadian Co-operative Wool Growers Limited has been disposed of at what is considered a satisfactory price, practically all to the Canadian trade.

The exclusion of Canadian wool from the United States by the Emergency Tariff of 150 per pound, the report states, "resulted in further developing our own Canadian outlet, and the efforts of the Dominion Livestock Branch and the Canadian Co-operative Wool Growers Limited, in instructing the farmers of the country how to prepare their clips, grade and popularize them with Canadian mills, has been largely responsible for the marketing of the clip."

The period from September 15 to December 31, was particularly active in the disposing of the clip, owing to the fact that all our mills have been enjoying at least normal business, and in many cases, above normal. This ready movement leaves only a few hundred thousand pounds still on hand, and if certain sales now pending go through, full and final settlement can be rendered on all shipments sometime during January, although it should be borne in mind that there will be no surprises in the shape of high prices.

"Although a sheepman's organization can do much to prove competition, and otherwise, lend its aid to the stabilization of the industry, it cannot accomplish bringing about wool prices higher than the general average ruling in other markets of the world."

"There is a tendency in many cases to co-operate only when it is thought there is some gain forthcoming, and then go back to the middleman when he offers a slightly higher price than was received the previous year, the result being that co-operative organizations cease to function, when the middleman has no competition to consider when setting his prices. It should be borne in mind that it is the general average returns over a period of a number of years that must be considered in co-operative marketing and not the results of one season only."

"Our final word," states the report, "would be one of courage. There are other eggs in our farm basket realizing less for us right now than our sheep, and, moreover, the atmosphere is clearing, a stronger, and we hope, a slightly advanced market, is looked for in 1922."

A Matter of Precedence

Prince of Wales Gives Place to Viceroy in India

The visit of the Prince of Wales to India has drawn attention to the fact that the popular form of the Governor-General's title, that of Viceroy, is now most truly applicable, for although in England the Prince of Wales has precedence immediately after the King and stands first in every gathering at which the King is not present, there are different rules outside that country.

Queen Victoria, who had fought hard to give her Prince Consort precedence over the yet unborn Prince of Wales, maintained, in face of some opposition, that in India he must give the pass to the Governor-General, who was her direct representative.

The difficulty was got over by calling the Prince of 1875 the guest of the Governor-General. That rule still holds.

In Ireland the Prince of Wales stands third in order of precedence, after the King and the Lord Lieutenant.

In Scotland the Sovereign is followed in precedence by the High Commissioner of the General Assembly of the Church of Scotland while the Duke of Rothesay, which is the Prince of Wales' unfamiliar title in the peerage of Scotland.

London has had its equivalent of a lord mayor since the days of the Romans.

One does not go to the Arctic for fruit nor seek furs in the Tropics, and the last place on earth the average individual would think of securing trees would be the Canadian prairies. The very word conjures up a picture of vast stretches of interminable treeless plains, for a great section of the people of the continent are unaware of what a misnomer the term is, and how these plains, made to glow golden with the first grain of the continent, have been beautified by the extensive planting of trees of every sort, which thrive lustily as if sprung naturally from the soil.

That a wide demand does come to the Canadian prairies for trees is evident in the history of the Prairie Nurseries in Saskatchewan, the largest nursery concern in Western Canada, and claimed to be the largest grower of Caragana and Russian Poplar in the world. Not only have millions of trees been sent out to cover the Prairie Provinces from the nursery, but their product is shipped as far east as Fort William and as far north as the Peace River country. Nurseries in British Columbia and Ontario also purchase considerable stock from it, and shipments of considerable size have been made to the United States, these including in the past year 140,000 Caragana and 80,000 Box Elders or Manitoba Maples.

The nursery, which is near the city of Estevan, covers four hundred acres, practically all of which is under cultivation. Started in 1911 on a very small scale, the present management took over the nursery in January, 1915, when there were only a few acres cultivated. Each year since that time the acreage under cultivation has been greatly increased, and the number of young trees which have left its parent soil run into many millions.

The greater part of the nursery is taken up with plantations of the hardiest trees and shrubs, Russian Poplar, Laurel Willows, Manitoba Maples and Caragana. A beautiful new shrub, the Russian Olive, is grown largely for hedges, also the Buckthorn, but the Caragana is the most popular and 3,000,000 seedlings of this variety were grown this year. A large stock of the hardiest apples, plums, cherries and small fruits is grown, with the demand increasing every year. The demand for fruits and ornamental shrubs taxes the utmost resources of the nursery, especially currants, raspberries and strawberries.

The nurseries give employment to a large staff of men, there being thirty-five salesmen and a veritable army of gardeners during the rush seasons. Schools are held each year giving instruction to the salesmen in landscape gardening and horticulture, with special attention to the planting and care of nursery stock.

To Interest the Juniors

Boys' and Girls' Judging Competition at Saskatchewan Dairy Convention

Prominent among the features of the Dairy Convention to be held at Regina, Feb. 8th to 10th, will be the Boys' and Girls' Dairy Cattle Judging Competition. This competition has been carried on for five successive years and a very lively competition is looked for at this year's convention. Special entertainment is being provided for the boys and girls during the sessions of the convention which are not of direct interest to the younger generation of dairymen and dairymaids.

An Inter-provincial Butter Judging Competition will be conducted by Geo. H. Barr, Chief of the Dairy Division, Ottawa, which is open to all butter-makers or others interested, excepting those regularly engaged in butter grading. It is hoped there will be a goodly number of competitors from each of the three provinces and a very keen competition is looked for in this connection.

The English Pound

The English pound was at first not a coin at all, but simply a measure of weight. Before the use of gold coins it was probably sixteen ounces of iron or copper. The gold coin represents the equivalent of these unyielding amounts. For centuries the Scottish pound was a smaller silver coin worth only a shilling or two.

It Works Wonders On Colds, Catarrh, Bronchitis, Weak Throat

When your throat rattles, your lungs and chest are sore, your throat is stuffed with colds—don't fear cough—use Catarrhose and get well. It clears the throat, stops hacking, relieves tight chest and soreness in the bronchial tubes. To clear away Catarrh of the nose nothing could be better. Catarrhose is Nature's own remedy—it heals and soothes—removes every form of throat, lung and bronchial trouble. Prescribed by many specialists and used by thousands every day. Get the dollar outfit; it lasts two months. Small size, 50c; trial size, 25c; at all dealers or the Catarrhose Co., Montreal.

The Homesteaders

(Continued)

He leaned forward in the trees, but at that moment Riles clutched Gardiner's arm and said something in a low voice. The two men rode through the river, and their words were drowned in the lisp of the water.

The smile did not leave Travers' lips as he wound up his reel and stole swiftly along his cattle-track up from the river, but a sudden light gleamed in his eyes and his muscles hardened with excited tension. He knew the shanty to which Gardiner referred, as they had once been there together, and he resolved that if there were going to be any "doings" in that locality to-night he would turnish a share of the excitement. Unfortunately, the ford was on a cross-road little used, and it was two miles back to the ranch. Had he been raised on the ranges he would not have been caught so far from his horse, but a Manitoban sometimes uses his legs to walk with, while his brother in Alberta finds them useful only for wearing shape and straddling a saddle. By the time Travers reached the ranch buildings, caught and saddled his horse, made a fruitless search for his revolver, substituted a rifle which lay at hand, and at length found himself upon the trail, darkness was setting in, and Gardiner and Riles had many miles' start of him.

When the two plotters stopped to let their horses drink at the ford Gardiner suddenly broke off from their conversation to make a few remarks about Travers and Harris. Riles had listened indifferently until his eyes caught sight of Travers, half concealed among the cotton-woods that fringed the stream. He clutched Gardiner's arm.

"Sh-sh," he cautioned. "Jim's just

behind the bank. I'm sure I saw him, as he heard you, too."

"Good," said Gardiner, quite undisturbed. "Now we can go on." They reined up their horses and plunged into the swiftly-running water. "You see," said Gardiner, as the horses took the opposite bank with great strides, their wet heads splashing on the round boulders that fringed the stream—"You see, I knew Jim was there all the time. Those remarks were intended for his benefit."

Riles parted with a great chew of tobacco. "You beat me," he said, wiping his nose with the back of his hand. "You plumb beat me!" Gardiner enjoyed the note of admiration in his companion's voice. He enjoyed also that knowledge that Riles was utterly at a loss; that he had no more idea than the horse he rode what lay before them that night.

"It's all quite simple," said Gardiner, after he had turned back to the ranch, saddle his horse, and follow us. By the way, I didn't tell him a word. But he should arrive at the shack in time to be taking a few stealthy observations about the moment the Harries are hunting for their money bag. I hope Allan doesn't use that shotgun on him. A shotgun makes an awful hole in a man's ribs."

Riles experienced an uncanny feeling up his spine. "Well," continued Gardiner, "I promised to lay the whole plan before you, when we were safe on the road with no possibility of any strange ears cocked for what a man might happen to say. Look at that sunset, Riles; isn't that magnificent!"

"Good enough, I suppose," said Riles, "but I hope we didn't come out here to see the sunset. How about this plan of yours?"

"Riles," admonished Gardiner, "you've no more soul than a toad-stool. You haven't any imagination. I wonder you have faith enough to wind your watch. Now if you could paint a picture like that it would make you more money than you ever saw, including what you're going to see to-night."

But to get down to the scheme. It's all easy, as you know. The big thing was to get them on the road with the coin. That's what I needed you for, Riles. And you didn't do too bad. I had to push you along a bit, but you'll thank me for it when it's all over."

"Yes, but it's them that's got it, not us," commented Riles.

"Sure, but it'll be different in the mornin'." Riles, you are a gloomy devil. Here you have ten thousand dollars right in your mitt and you're as happy as a man with a boll. Now this is how it will work out, to a T. The two Harries will get up to the shanty about dark. If Travers catches up on us we'll just let him make one of the party, which will be sort of embarrassing for Jim. But he won't catch up. Well, when it's good and dark—there'll be no moon till after midnight—and they're both sleepy with their long drive in the high altitude, we will arrive nearby. You will go up to the door and take a look on the quiet. I will go up to the window and do the same. There's no glass in the window, and there's no door on either, as I remember. We'll size up things inside, particularly the location of the coin. Then you show yourself. Tell 'em I have the owner of the mine out there in the trees, but the old fellow won't come until he has talked with them. Tell 'em they better not show the money until they chat with him a few minutes. Likely they'll fall for that, as they don't seem to have the slightest suspicion. But if they balk at leaving the money let them bring it along. Once put in the dark the rest will be easy. But I figure they'll leave the money in the shack—it's just for a few minutes, you know—and they'll reason that it's safe enough with no one but ourselves within miles. Well, you lead them off down through the bush. As soon as you do that I'll slip in through the window, gather up the long green and cache it somewhere in the scrub. You won't be able to find me at first, but when you do I'll say the old fellow wanted to go up to the shack himself to meet them, and I let him go. Then we'll all go back to the shack, and find both the money and the old man—the mine-owner, you know—missing. Then we'll start a hue and cry and all hit into the bush. You and I will gather up the spent money and make a quiet get away for the night. Of course we'll have to turn up in the morning to avert suspicion, but we can tell them we got on the robber trail and followed it until we lost ourselves in the bush. In the meantime the Harries will be tearing around in great excitement, and they're almost sure to run on to Travers. Harris recently fired Travers, and Allan had a fight with him. If you told me right, so it's not likely they'll listen to any explanations. They'll turn him over to the police, and as it's the business of the police to get convictions, they'll have to frame up a case against him or be made to look stupid—and that's the last thing a policeman likes. Then you and I will quietly divide the proceeds of our investment, and you can go back to your farm. If you like, and live to a ripe old age and get a write-up in the local paper when you shuffle off. As for me—I'm not that type. Riles, and I'll likely find some other way to spend my profits."

"It looks easy," Riles admitted. "But what about Jim? He'll tell what he heard you say at the ford."

HEALING SOOTHING ANTISEPTIC for Injuries & Skin Troubles **am Buk**

"Let him. Nobody'll believe it. Remember that when he tells that he'll be under arrest, and when a man's under arrest his word is always discounted. To be arrested means to be half convicted. It takes two good witnesses to offset the moral effect of arrest, and Travers will have no witnesses."

"It's all quite easy," Gardiner continued. "And if it should fall there are a dozen other ways just as easy. But we won't let it fall. We mustn't let it fall, on your account."

"On my account? What more account mine than yours?" "You see, Harris, no doubt, has your letter stored away somewhere, and it would make bad evidence for you. I don't think it mentions anything about the money, but a way through a pass in these mountains, and if it doesn't turn out right—why, I'm glad I know the way. You see, I've nothing to lose, and nobody to worry over me. But it's different

He Knows What To Do Next Time

Reasons Why Wm. Rimus Praises Dodd's Kidney Pills

His Backache is Gone and His Rest is Unbroken So He Will Turn Again to Dodd's Kidney Pills if His Trouble Returns.

Quavville, Ont.—(Special).—"I can truly say that I got great relief from Dodd's Kidney Pills."

Such is the verdict of Mr. William Rimus, a well known and highly respected resident here. And here is the reason why Mr. Rimus is so positive:

"Before I used Dodd's Kidney Pills I had backache all the time," he states, "and I had to get up once or twice every night and now I have no trouble at all."

"I only used two boxes of Dodd's Kidney Pills. But if ever I am troubled with my kidneys again I certainly will use Dodd's Kidney Pills."

Dodd's Kidney Pills are known all over Canada as a standard kidney remedy. They have made their reputation by doing good to people who suffered from any form of kidney disease.

Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

Many a toothless person indulges in biting sarcasm.

Do not allow worms to sap the vitality of your kidneys. If not attended to, worms may work irreparable harm to the constitution of the infant. The little sufferers cannot voice their ailment, but there are many signs by which mothers are made aware that a dose of Miller's Worm Powders is necessary. These powders act quickly and will expel worms from the system without any inconvenience to the child.

We feel sorry for a man who gets what he really deserves.

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is a recognized healer among oils and numbers of people can certify that it healed where properly applied.

with you, Hiram. You have a wife and a fine farm down in Manitoba, and it would be inconvenient for you to slip away without notice. So I say that on your account we mustn't let it fall."

"You didn't say nothin' about that before, I notice," said Riles.

"You mustn't expect me to do your private thinking as well as that of my firm," Gardiner retorted. "You had the facts—why didn't you patch them together for yourself? You're in a mess now if things don't go right. But, as I said, I'm going to stick with you and see that they do go right."

They rode along in silence in the gathering darkness. Had they been able to read each other's minds they would have been astonished at the coincidence of thought. Gardiner was planning to make away with the money when he got out of the building. Why should he divide with Riles—Riles, who would only hoard it, and who had plenty of money already? Not at all. Riles might sue him for his share, if he wanted to—and could find him, to serve notice. On the other hand, Riles' glow with had quickened to the point of perceiving that there lay before him a chance of making twenty thousand dollars in less than ten thousand, if he only had

CORNS

Lift Off with Fingers

Doesn't hurt a bit! Drop a little "Frezzone" on an aching corn, instantly that corn stops hurting, then shortly you lift it right off with fingers. Truly!

Four druggist sells a tiny bottle of "Frezzone" for a few cents, sufficient to remove every hard corn, soft corn, or corn between the toes, and the caluses, without soreness or irritation.

I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

Neglected kidney troubles lead to years of suffering from rheumatism or develop into such fatal ailments as Bright's disease.

The kidney action is promptly corrected by use of Dr. Chase's Kidney-Liver Pills—the best known regulator of kidneys, liver and bowels.

Mrs. John Ireland, R.R. No. 2, King, Ont., writes:

"I was a great sufferer from severe headaches and bilious spells. I tried a number of remedies without obtaining any benefit until I was advised to use Dr. Chase's Kidney-Liver Pills. These completely relieved me and made me feel like a new person. I am very grateful to Dr. Chase's medicines for what they have done for me, and you may use my letter for the benefit of others."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers or Edmondson, Bates & Co., Ltd., Toronto.

Farmers Decide That Export Meat Business Is Not Profitable

Calgary.—Expressing an opinion that the establishment of any scheme for wheat marketing would be unlikely to secure for the farmers enough money to make it a problem for serious consideration J. B. Musselman, secretary of the Saskatchewan Grain Growers' Association, speaking as a fraternal delegate to the United Farmers of Alberta convention, stated that the farmers must go through a period of suffering during the time in which there was being brought about a re-establishment of a reasonable parity between the prices at which the farmers have to buy and what they have to sell. Such a time of distress, he thought, was impossible to avoid, and it must be borne by all, farmers, laborers and business men alike.

United Farmers of Alberta at this time will not go into the co-operative meat export business. After a long discussion, the 1,042 delegates decided to table indefinitely a report from a special committee which recommended that the association go into the business of shipping chilled beef to British markets on a co-operative plan.

F. M. Black, treasurer of the United Grain Growers, Limited, who spoke by invitation, was not optimistic over the possibility of developing a chilled beef export business from Alberta points. Mr. Black predicted the removal of the British embargo on Canadian cattle within about six weeks, as the result of the settlement of the Irish question.

The report of the committee advised that action should be taken immediately to start marketing Alberta beef by the chilled meat system, through the medium of a co-operative company.

Hon. George Hoadley, provincial minister of agriculture, had written that the "government was convinced that the weight of evidence went to show that shipping of chilled Alberta beef to the British market would not be a profitable enterprise.

It pays to patronize home industry. Buy from the merchants in your own town.

Six Million For Salmon

Britain and France Take Bulk of B.C. Pack

Victoria, B.C.—In British Columbia 603,448 cases of salmon were packed in 1921, and 6,000,000 was realized. There remains to be sold 120,000 cases of "plinks." France absorbed a large proportion of the 192,906 cases of plinks, and Great Britain took more than half of the sockeye pack of 163,914 cases, leaving about 75,000 cases for Canadian consumption.

COULDN'T DO HOUSEWORK, HEART WAS SO BAD

Many women get weak and run down and unable to look after their household duties owing to the heart action becoming impaired or the nervous system unstrung.

Nature intended women to be strong, healthy and happy instead of sick and wretched. But how can a woman be strong and healthy when day in and day out she has to go through the same routine of work, sweeping, dusting, cooking, washing, etc. Is it any wonder that the heart becomes affected and she gets irritable and nervous, has hot flushes, faint and dizzy spells, another and sinking spells and can't sleep at night.

To all women whose heart is weak and whose nerves are unstrung we would recommend

MILBURN'S HEART AND NERVE PILLS
as the best remedy to tone up the system and strengthen the weakened organs.

Mrs. Daniel Beanson, Loganville, N.S., writes:—"As I was troubled with a weak heart for nearly two years I am writing to tell you what your great remedy, Milburn's Heart and Nerve Pills, has done for me.

My heart was so bad at night I could not sleep, I would take smothering spells, and was so weak I could not do my housework. I tried two doctors, but got no results. A friend advised me to try your pills. I used six boxes and am completely relieved. I think they are the best remedy for heart trouble there is."

Price, 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Working Full Time
Brantford, Ont.—The Massey-Harris Company announced that the 600 employees now on their pay roll would be placed on full time. The hope was expressed that this longer time would prevail for some weeks.

ACHES AND PAINS—SLOAN'S GETS 'EM!

AVOID the misery of aching pain. Have a bottle of Sloan's Liniment handy and apply when you first feel the ache or pain.

It quickly eases the pain and sends a feeling of warmth through the aching part. Sloan's Liniment penetrates without rubbing.

Fine, too, for rheumatism, neuralgia, sciatica, sprains and strains, stiff joints, lame back and sore muscles.

For forty years pain's enemy. Ask your neighbor.

At all druggists—35c, 70c, \$1.40.

Sloan's Liniment (Pain's enemy)
Made in Canada

Wheels Turn Easier—

Imperial Mica Axle Grease gives perfect lubrication between hub and axle. Its mica flakes smooth the roughness of the spindle and hub, enabling the grease to do its work more thoroughly. Saves friction, wear and tear, horse power and axle trouble. Goes twice as far as ordinary axle grease and lasts twice as long.

Harness Lasts Longer—

Imperial Eurika Harness Oil will keep leather soft and pliable and double the life of harness. Tugs and straps remain soft and are easily adjusted, as the oil penetrates to every fibre of the leather. Prevents cracking and breaking of stitches and needless repair. Imperial Eurika Harness Oil gives a rich black, lasting finish.

Police Wound Man Who Resisted Arrest

Belgian Charged With Obtaining Money Under False Pretences

Vancouver.—George Darrison, a Belgian, is in hospital suffering from bullet wounds—in the thigh inflicted by police of South Vancouver when he resisted arrest on a charge of obtaining money under false pretences. Darrison is alleged to have advertised for workers for a paper mill which was to be started at Coquitlam, B.C., with Belgian capital. He is said to have collected a deposit from prospective employees on account of board and lodging to be arranged for.

By making your purchases from your home merchant you are contributing direct to the prosperity of the community in which you live.

W. R. ALLAN, Elected President of the Union Bank of Canada, to succeed John Galt, who retires from the presidency because of his removal from Winnipeg to make his home in Victoria, B.C. Mr. Galt remains a member of the Board of Directors.

Union Bank of Canada Aids Agriculture

Annual Report of Union Bank of Canada Shows This Institution Continues to Give Valuable Assistance to Farmers

The 1921 report of the Union Bank of Canada now available to the public could not have appeared at a more opportune time.

The outstanding impression that is gained from examination of the Bank's statement is that the Bank has been particularly active in providing for the needs of its farmer clients. Current loans and discounts in Canada total over \$62,000,000 and demand loans in Canada secured by grain amount to \$7,485,413. These and other figures in the statement prove that the Bank is helping to finance the agricultural industry of the Dominion in substantial measure.

Dealing with the report as a whole, it is very reassuring to note that the Union Bank has been able to maintain a strong cash position. Total assets exceed \$162,000,000, and include gold and silver coin and Dominion Government notes amounting to \$14,229,729, Dominion and Provincial Government securities \$15,946,501, Canadian Municipal securities and other public securities totalling \$9,618,253, current loans and discounts in Canada \$62,000,000, and loans to governments and municipalities \$7,420,529.

The officials of the Bank deserve commendation for placing before the public such a strong balance sheet, particularly in view of the fact that such a statement will serve as a stabilizing medium at this time.

Cabinet Differences Add To Worry Of The British Premier

London.—The London Times says that the cabinet differences were so acute at the last weekend that there was a possibility that Premier Lloyd George would withdraw from the government and hand the reins over to Austen Chamberlain, who, heading a United Unionist party, would have a working majority of about 100 in the House of Commons, from which the Sinn Fein members still remained absent.

The Times adds that this possibility may now be said to have disappeared; that Mr. Lloyd George was reluctant to leave office before completing the act of parliament involved in the Irish treaty and was also keenly desirous of realizing fully the possibilities of the Genoa conference.

The postponement of the re-opening of the British Parliament from January 31 until February 7, was said by the party whips to be due to the fact that parliament usually meets during the second week of February and that there was much financial "spade work" to be done before it can re-assemble.

In political circles, it was said the report of the economy committee headed by Austin Chamberlain and Sir Eric Geddes, was not yet ready and would not be available yet for at least a fortnight. The government wishes

to digest the report thoroughly, it was said, before parliament meets.

The Evening Standard says it understands one of the main reasons for postponement is on account of problems in connection with drafting necessary legislation to put the Irish treaty into effect.

May Soon Take Seat
Belfast.—As a consequence of developments in connection with the establishments of the Irish Free State, the Irish Nationalists will soon take their seats in the Northern Parliament which they have boycotted since its establishment. The Belfast Telegraph says it has learned on good authority.

Wants to Sell Menagerie
Sofia.—King Boris of Bulgaria is the modest "man with an elephant on his hands" and he wants to sell part of his private menagerie. Particularly, he would like to dispose of two elephants and several fine buffaloes which are now in the grounds of the summer palace near Sofia.

Girl Bank Messenger Robbed
Toronto.—Miss Margaret Redpath, a clerk in the employment of the Penny Bank, was held up and robbed of \$1,600. This is the first time that a girl bank messenger has been waylaid in the city.

The Secret of Good Health

Assist Nature back to normal action

Take

When Nature requires assistance, she will not be slow in conveying to you an intimation of the fact. Decline of energy, inability to sleep well; headache, biliousness, constipation, a general sluggishness of mind and body and any sign of digestive "unrest" should impel you to seek the aid of a reliable medicine without delay. There is no better—no surer—no safer—than this proven remedy.

Note and Comment

The pitcher went to the well 999 times, only to be broken on the thousandth trip. You may fill your gasoline tank while the motor is running many, many times without an explosion; you may start fires a heap of times, and escape being blown to kingdom come; you may toss many cigarette and cigar stubs into the wastebasket or through the window on the awning or roof without causing a blaze; you may leave the current on the iron while answering the telephone or door-bell without even scorching the ironing board, and know how many times; you may pile your closets, attic and basement full of trash and rubbish for a long time without direful results; you may be careless with oily rags and mops and get by for many moons without a mishap—but as sure as fate you will pay the price sometime, depending entirely upon your luck.—Ex.

A man in Consort says that his wife is the most wonderful woman in the world. She is always wondering where he is at nights.

An interesting story is now going the rounds concerning an editor who comes right out and flaunts his ignorance. He says he can't help his son with his night work when the questions asked are like these: "If it takes a four-month-old wood pecker with a rubber bill, nine months and thirteen days to peck a hole through a tree that is large enough to make 117 shingles and it takes 165 to make a bundle worth 93 cents, how long will it take a cross eyed grasshopper with a dill pickle?

How many times have you written 1921 since 1922?

World Happenings Briefly Told

E. B. Borthwick, ex-chief of police of Swift Current, has been appointed chief of The Pas fire and police departments.

The Scots' Guards band sails for Canada on April 22. The band will give concerts throughout the Dominion on behalf of the war veterans.

George Baldwin Selden, 77, inventor of the first gasoline propelled vessel and a pioneer in the present automotive industry died recently at his home in Rochester.

Eleven members of the crew of the German steamer Vesta bound from Hamburg to Lisbon as well as the wife of the chief officer, were killed by an explosion on the ship following a fire. Ten survivors of the crew were landed at Lowestoft by a trawler.

Maudie Adams, who is known to thousands of Canadians as Peter Pan, has presented her 300-acre estate at Lake Ronkonkoma, L.I., to the Roman Catholic sisterhood of Our Lady of the Cenacle. The estate is valued at \$130,000.

The minister of publicity Dublin, has published a letter from "The Irish consulate to New York" advising suspension of all emigration from Ireland to the United States in view of the depression in trade and the unemployment which prevailed there.

The city of Montreal was found guilty of gross negligence in connection with the death of Lillian Manning, the eight-year-old daughter of Joe Manning, who fell through an open manhole into a sewer last winter, and was ordered to pay \$665 to the child's parents. Mr. Manning originally sued for \$2,500.

Grain Growers Had Profitable Year

Financial Report Shows Total Profits Of \$233,743

Five hundred delegates, representing 30,000 shareholders, were present at the annual meeting of the United Grain Growers, held in Winnipeg. All the retiring directors were re-elected. The financial report for the year ending August 31st showed total profits of \$233,743, while the total current assets of the company are reported to be \$5,975,000.

Fish Catch Is Valuable

The value of fish and fish products in Saskatchewan is \$300,000 annually according to the report of the Department of Labor and Industries. The total catch of white fish for the year was 2,420,600 pounds valued at \$212,869. The sparcest fish for marketing this year is the gold eye. Only one ton was caught, the value being \$240. Other commercial varieties are mullet, pickerel, pike, sturgeon, trout and tullibee.

Strained Muscles, Sprains, Can Be Treated Quickly

In minor sprains, the muscle is strained a little, and all that is needed is a vigorous rubbing with Nerviline. This draws the extra blood away, and permits the muscle to return to its normal condition. The supremacy Nerviline enjoys is owing to its penetrating power. It strikes deeply, that is why it removes deep seated pains, and fires up folks that have Rheumatism, Lumbago, Neuralgia and Sciatica. There is about five times the pain destroying power in Nerviline than you find in the average liniment. Sold everywhere, 35c per bottle.

Winnipeg Planning Industrial Credits

Estimate Five Million Dollars Needed to Finance Undertaking

A system of industrial credits, similar to rural credits scheme, will be put into operation early in the new year by the Winnipeg Trades and Labor Council, it was announced. The proposal, which is only in a tentative form, will be to loan money to small industrial concerns at a slightly higher rate of interest than it costs to provide for administration expenses. It is estimated \$5,000,000 will be needed to finance the undertaking, and this will be raised by means of a loan.

Ladies-Remove Their Corns In A Very Simple Way

No pain, no trouble, costs only a quarter. It is a very simple thing to paint on a small application of good old "Putnam's" night and morning. To remove corns, to get entire freedom from them, use Putnam's Corn & Wart Exterminator. It is guaranteed. 25c at all dealers. Refuse a substitute.

Why owe any person a grudge? Let's pay as we go!

ITCHING BURNING ECZEMA ON FACE

In Blisters. Was Disfigured. Cuticura Healed.

"Eczema started on my face around my chin. It came out in blisters and the itching and burning were very disagreeable. Sleep was out of the question and my face was disfigured so I wore a veil. "I was treated and used different remedies but nothing would do any good. I procured a cake of Cuticura Soap and a box of Cuticura Ointment which soon healed me." (Signed) Miss Carrie H. Fiske, Gray, Day Mills, Me. Try to prevent further trouble by using Cuticura for all toilet purposes. See 25c. Ointment 25c and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: Lyons, Limited, 141 St. Paul St., W., Montreal. Cuticura Soap shaves without lather.

Blotting Paper Being Made in Canada

Half Million a Year Has Been Paid for Import

After extensive and thorough experimentation, blotting paper of the finest quality is reported for the first time produced in Canada, the Howard Smith Paper Mills, Ltd., Cornwall, Ont., being the pioneers in this branch of the industry. Hitherto the blotting paper used in Canada has been imported, the imports being valued at about half a million dollars a year.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are so changeable—one day bright, the next cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up, overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds, and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Still a Mystery Another would-be contributor to a comic paper sent a humorous paragraph for insertion. Not getting any reply, or seeing it in print, he presently wrote:

"I sent you a joke about ten days ago. I have heard nothing respecting its safe receipt, and should be glad to hear whether you have seen it."

The editor's reply was as follows: "Your joke arrived safely, but to the present we have not seen it."

Young Girl's Party Frock of Pastel

By Marie Belmont

Pastel shades are favored for the younger girl. This shell colored charmeuse is essentially the ingenue type most suitable to the young miss who will wear it.

The simple bodice extends into a straight across top portion, which drops over the shoulders in the newest fashion. The plain bodice is drawn in to fit the figure.

Roses of the material decorate the belt front. The only other trimming note appears in the three applied folds of the charmeuse. The folds diminish in width as they near the top of the skirt, this idea being one borrowed from mother's party frock.

Minard's Liniment for Garget in Cows

England Takes Bulk of Wheat The total wheat booked for export from Vancouver this season has now reached 100,000 tons, of which two-thirds is for England.

CATARRHAL DEAFNESS

Is greatly relieved by constitutional treatment. BALD'S CATARRH MEDICINE is a constitutional remedy. Catarrhal Deafness is the result of an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound of imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced, your hearing may be destroyed forever. BALD'S CATARRH MEDICINE acts through the blood on the mucous surfaces of the system, thus reducing the inflammation and assisting Nature in restoring normal conditions. Circulars free. All Druggists. E. J. Cheney & Co., Toledo, Ohio.

Immigration to Canada

Report Shows More British Than Other Nationalities

The total immigration to Canada for the month of November, 1921, was 4,660, 1,404 being from the British Isles, 1,747 from the United States and 1,409 from other countries. Immigration to the Dominion for the first eight months of the fiscal year, April to November, totals 76,575, of whom 35,941 are British, 23,279 from the United States and 17,355 from other countries.

One of the best known guides in Nova Scotia gives this testimonial of MINARD'S LINIMENT:

"Have used Minard's Liniment in my home, hunting and lumber camps for years, and consider it the best white liniment on the market. I find that it gives quick relief to minor ailments, such as sprains, bruises and all kinds of wounds. Also it is a great remedy for coughs, colds, etc., which one is liable to catch when log driving and cruising during the winter and spring months. I would not be without MINARD'S LINIMENT and cannot recommend it too highly. (Signed) E. Allison Gray."

Alberta Turkeys Sent to States Twenty thousand pounds of Alberta turkeys were shipped to Minneapolis and St. Paul during the Christmas season through the medium of the egg and poultry branch of the department of agriculture, which handled 40,000 pounds altogether of the surplus turkeys raised by Alberta farmers.

Minard's Liniment for Warts, Corns, Etc.

PATRICK J. HALEY
Syracuse, N. Y.

"I'm feeling like a new man since Tanlac soothed and toned up my stomach and—for the first time in forty years can eat a hearty meal and suffer no distress afterwards," was the remarkable statement of Patrick J. Haley, 107 Prospect Ave., Syracuse, N. Y., a well-known iron and steel worker:

"Only those who have had stomach trouble in a bad form can know what I suffered during all those years. I was almost a nervous wreck, too, and for years I didn't know what it was to get a good sound sleep at night."

"I got new life and energy from each dose of Tanlac and now I'm a well and happy man instead of a sick and miserable one as I was for so many years. I'll vouch for the merit of Tanlac at any time."

Tanlac is sold by leading druggists everywhere.

Weather strips will soon be classed as long felt warts.

ECZEMA You are not exorcising when you use Dr. Chase's Ointment for Eczema and Skin Irritation. It relieves at once and gradually heals the skin. W. N. U. 1404

Why does any healthy person want to be kicked into wakefulness in the morning?

Many people feel that they have to be agitated into wakefulness in the morning. They think that without the tea or coffee they take in the morning that they will not be able to meet the tasks and duties of the day.

Nothing could be more false than this reasoning. Any doctor can tell you this. For a healthy body does not need or require a stimulant. It gets all the stimulant it needs from food.

The thein and caffeine found in tea and coffee are irritating to the heart and nervous system. They jolt the nerves into undue activity. The result is a reaction. This is why regular tea and coffee drinkers think they must have their stimulant the first thing in the morning to wind them up for the day.

If you will stop using tea and coffee for a week, and drink

Postum, the pure cereal beverage instead, it will give Nature an opportunity to rid the system of the irritating substances that harass your nerves, upset digestion, increase your heart action, and make you nervous and irritable.

Many people who have tried Postum say that inside of a week they wake in the morning without that "all gone" feeling that they used to have, and are full of energy, strength and endurance.

Order Postum from your grocer today, and make it according to directions. Your first sip of Postum will surprise and please you.

Postum comes in two forms: Instant Postum (in tin) made instant in the cup by the addition of boiling water, Postum Cereal (in packages of larger bulk, for those who prefer to make the drink while the meal is being prepared) made by boiling for 20 minutes.

Postum for Health—"There's a Reason"

Made by Canadian Postum Cereal Co., Limited, Windsor, Ont.

LEGISLATORS SHOULD SEE CANADA

Editorial taken from the Vancouver Sun

Parliament at its next session must deal with great and vital problems; urgent and imperative; which cannot be evaded or laid aside for future consideration.

Immigration, Railway, Taxation, Freight Rates, Tariff, Public Works will present questions demanding immediate action by the decision of men who should have some personal knowledge, as distinguished from a geographical or historical knowledge.

Acquaintance in the great majority of cases leads to appreciation. Every member of the Canadian Parliament should be invited, and so far as the Government has power or influence, requested to traverse Canada from coast to coast; going one way over the Canada National Railway and the other over the Canadian Pacific.

No man is fit to legislate for Canada until he has seen Canada. Money expended by the Government in paying the expenses of every member of Parliament on a journey from one end of Canada to the other would be only a reasonable and necessary insurance premium for securing good legislation and ensuring against inadequate or ill-advised legislation.

We believe that the efficiency of Parliament would be greatly increased once every member had made a transcontinental tour of personal investigation. Even if the times were normal, and the demands for Parliamentary action confined to routine legislation, there would be a great factor of safety in legislative action by a body of men who were dealing with localities they had actually visited.

Our legislator friends from the Eastern Provinces, once they come out and get acquainted, will find that Western Canadians inhabit a fair country of rich resource; and that the great golden future of Canada will materialize largely as a result of co-operation between East and West; and will be retarded by any intervening discriminations.

In this spirit we suggest to the press of Canada that a nation-wide movement be undertaken to have every member of Parliament "See Canada" before he enters upon his duties as a Canadian legislator.
 —Vancouver Sun.
